THE BETTER LAND.

I hear thee speak of the better land;
Thou callest its children a happy band;
Mother! oh where is that radiant shore?
Shall we not seek it, and weep no more?
Is it where the flower of the orange blows,
And the fire flies dance through the myrtle boughs?
No, not there, no, not there, my child!

Is is where the feathery palm-trees rise,
And dates are grown ripe under sunny skies?
Or 'mid green islands of glittering seas,
Where fragrant forests perfume the breeze,
And strange, bright birds on their starry wings,
Bear the richest hues of all glorious things?
No, not there, no, not there, my child!

Is it far alway in some region old,
Where rivers are wand'ring o'er sands of gold?
Where burning rays of the ruby shine,
And diamonds light up the secret mine,
And pearls gleam forth from the coral strand?
Is it there, sweet mother, that better land?
No, not there, no, not there, my child!

Eye hath not seen it, my gentle boy!
Ear hath never heard its deep sounds of joy;
Dreams cannot picture a world so fair;
Sorrow and death may not enter there;
Time doth not breathe on its fadeless bloom,
Beyond the clouds and beyond the tomb;
It is there, it is there, my child!

VOICE OF PROGRESS.

Hear ye not now the voice of God,
From the great peoples' heart resounding?
See ye the light that is abroad,
Proud rulers of the earth confounding?
Our world is waking from her dream,
To snap her creed-formed chains asunder,
Shouting with voice of fire and steam
Deep chorus of progressive thunder.

Weak hearts may falter in the shade,
May count the gloom of buried ages,
But live men will not be dismayed,
By phantoms dug from dusty pages.
The living, not the dead, are ours, [us,
Whose voices blend thro' death to cheer
While heaven reveals the human flowers
That bloom upon her borders near us.

Poor toiling millions, meager fed,
Are standing now at Freedom's portals,
While daylight blossoms overhead,
With sweet words from the dear immortals!
No more shall bigotry enshroud [tals!
Our dearest hopes in endless terror,
For light long hid behind the cloud,
Breaks o'er the gloom of ancient error.

Kings, priests, and conquerors no more
Shall chain our souls and steal our gueridon,
For bloody blades shall fall before [don,
Strong arms that share our common burden,
Earth's song of peace is on our tongue: [den
Archangels lean from heaven to hear it;
Mind is our king whose name is sung
In deeds, and tyrants must revere it.

RECORD OF THE REPUBLICAN PARTY.

A brief recapitulation of the various measures enacted by the republican party, during its ten years of power, in behalf of the cause of liberty and equal political and civil rights to all men, without regard to race or color, will be a matter of useful information to our readers at this time, and aid them in coming to a just and correct decision as to the party they can the most safely trust hereafter.

The first blow at the divine institution of slavery was a bill which became a law in August, 1861, confiscating all property and setting free all slaves used in aid of the rebellion.

January 25, 1862, a law was passed prohibiting the use of the jails of this district for the imprisonment of fugitive slaves.

The great measure emancipating the three thousand slaves in this district passed both houses of congress and was signed by the president in April, 1862.

On the 13th of March, 1862, a bill became a law forbidding and punishing the return of fugitive slaves, comming into our lines, by naval or military officers.

March 6, of the same year, the president had recommended the passage of a joint resolution proposing a co-operation between the general government and the slave states for the general abolition of slavery, on the principle of compensation to owners. During the month a bill covering this suggestion passed both houses, and was signed by the president April 10.

The bill abolishing the long existing, odious distinctions in this district against the colored people, such as taxing them for the education of white children and denying them all benefit from the tax, became a law in May, 1862.

June 16th, 1862, the president signed a bill which had passed both houses, prohibiting slavery forever in all the territories of the U. S.

June 1862, a law was enacted establishing diplomatic relations with the republics of Liberia and Hayti.

In July of the same year, a law was passed conferring on colored persons the right to testify in courts of justice; also, prohibiting the inter state coastwise slave trade.

In July, 1862, a bill became a law emancipating slaves coming within our lines whose masters were in rebellion and all slaves found in places captured by our troops.

July 7, 1862, President Lincoln approved a bill punishing the infamous practice of using the American flag for the protection of vessels engaged in the slave trade, in open defiance, as had grown to be the practice, of a plain constitutional provision. Under the provisions of this act one Gordon, captured while engaged in the slave trade was tried, convicted and executed.

July 17th, 1862, a law enacted authorizing the enlistment and military organization of colored men.

September 22d, 1862, President Lincoln issued a proclamation declaring that on the 1st of January ensuing he should issue another proclaiming all persons free in such states as might be named. And on that day the immortal proclmation declaring all slaves forever free in Arkansas, Texas, Louisiana, Mississippi, Alabama, Florida, North and South Carolina, and Virginia was issued.

March, 1863, a law was enacted incorporating an institution for the education of colored youths, to be located in this district, from which has grown up the Howard University.

A law was enacted in February, 1864, enrolling all colored men, whether slaves or not, into the national forces, allowing loyal masters a bounty of $300 for their slaves—afterwards reduced to $100 bounty. But this was wholly repealed in 1867.

On the 11th of June 1864, a bill became a law placing colored soldiers on a footing of equality in all respects with white soldiers.

June 28th, 1864, a bill was signed repealing the infamous democratic slave law.

In 1864 a law was passed allowing colored men to contract for carrying the mails.

The year before the act was passed prohibiting all distinctions on account of race or color in the public conveyances of this district.

The law creating the freedman's bureau was passed early in the year 1865.

January 27, 1865, the famous 13th amendment to the constitution, which had previously been approved by the senate, passed the house of representatives, forever abolishing slavery in the United States.

During this year acts were passed repealing the various measures enacted by the southern states during Johnson's rule, designed to re-establish slavery in another form, authorizing the disgraceful apprenticeship system, the law in regard to vagrancy, and authorizing the whipping of negroes.

The same year a law was passed abolishing the system of peonage slavery in New Mexico.

In December, 1865, a resolution passed both houses of congress appointing the joint committee on reconstruction, to whom was referred the credentials of all persons claiming seats from Johnson's reconstructed states, and all measures in regard to reconstruction.

February 26, 1866, an act was passed declaring that none of the rebel states were entitled to representation in congress until congress shall have declared such right.

In April, 1866, the civil rights bill, which Johnson had vetoed, became a law, by receiving the necessary two-thirds majority.

June 13th, 1866, the fourteenth amendment was passed making all persons born or naturalized in the United States citizens, prohibiting the states from passing any law which shall abridge the annuities or privileges of such citizens, defining who shall be senators or representatives, protecting the civil rights of all citizens, declaring that the vilidity of the public debt shall never be questioned, and prohibiting the United States and the several states from ever assuming or paying the rebel debt, and rendering it illegal and void.

In December, 1866, congress passed over Johnson's veto an act establishing universal suffrage in this district.

In January, 1867, a bill was passed declaring that within no territory of the United States should suffrage be denied on account of race, color or previous condition.

In February, 1867, the fifteenth amendment, securing to colored men the right of suffrage, and forever prohibiting its withdrawal, passed both houses of congress.

In March, 1869, a law was passed striking the word white from all the ordinances of this district, destroying all discrimination against colored men in such laws or ordinances.

In May, 1870, the bill known as the enforcement act became a law, its object being to protect colored men in all the rights to which other citizens are entitled.

In April, 1871, congress passed what is known as the ku klux act, giving the president power to protect the loyal people of the south against organized bands of assassins, and rendering the people of a county or city, under certain conditions, responsible for the damage done therein by these outlaws.

Such, briefly, are the leading measures adopted by a republican congress, and sanctioned and sustained by the republican party, for securing to the colored people of the nation the boon of liberty and the right of American citizenship.

As a companion piece to this long list of acts in the interest of justice and humanity, we ought, perhaps, to publish the record of the democratic party in behalf of slavery, wrong and outrage.

But it can hardly be necessary, at least until the wounds inflicted upon the backs of the four millions of ex-slaves have had time to heal. If colored men bear no malice against their democratic owners, they will not be apt to forget who fastened and who broke their chains.—Fred. Douglass' New National Era.

WOMAN VS. FEMALE.

The term female as a synonyme for woman, is a vulgarism that ought to be scourged out of good society. As it is equally applicable to one half the brute creation, its use instead of woman, lady, or girl, tends to lower the dignity and position of womanhood. When it is used without the proper substantive, one is sometimes provoked to inquire whether it is the female sheep, or bear, or swine, that is intended. Those who have a true respect for woman would never employ a term so indelicate and objectionable as this, if they realize how bad it is.

There may be occasions when its use is correct and unavoidable; but to speak of schools for young women as female seminaries, or female colleges, is not only ungrammatical, but essentially vulgar. Gail Hamilton, in one of her spasms of sense in the Independent, holds up a young lady to ridicule because she objects to being called a female teacher. The objection is reasonable and just. We do not say male teachers, male schools, male colleges, male clubs; certainly the great army of patient, hard working, underpaid women, should have the privilege of being called women, and not set down as females. How absurd it would seem to hear people say Harvard Male University? Yet is that any more ridiculous than to say Rutgers' Female Institute, or Troy Female Seminary? How often we hear men speak of meeting females in the street. Would they feel complimented or insulted were ladies to pass them by as males?

The use of this term is another evidence of the low estimate placed upon women for these long, weary ages. It is the result of the harem idea, which regarded her as a mere human animal, created for the sole purpose of pleasing the fancies of her master. Woman is now struggling to free herself from a debasing thraldom; yet custom is so powerful that even her friends constantly, but thoughtlessly, use this epithet, which tends to degrade her.

Usually, when one makes an effort to win the standard of womanhood, there are opposing bigots who quote the Bible in its condemnation. But the Bible, whose teachings are the foundation of the woman cause, is a model in respect to the use of this objectionable epithet. In no place do we find female used when woman, or maiden, or damsel can be employed. Those who desire to have its authority on their side, should follow its example in this respect.—Revolution.

THE STATE OF DELAWARE ASLEEP.

A correspondent of the Philadelphia Press writes from Lewis, Delaware:

The customs of many of the people here carry us back to the days of our grandfathers. Lime being scarce, few of the houses are whitewashed, and this gives them an ancient and rusty appearance on the outside, which is not lessened when you enter. All the cooking of the family is done in a large open fire place with the ancient Dutch oven. The house where we stayed had been occupied by the family since last December, yet only one room was plastered, and that served as kitchen, sitting room, and bed room. One side was almost taken up with the fireplace. The art of making ordinary loaf bread, such as Northern house keepers consider indispensable to the comforts of her family, seems almost unknow. Hot biscuits and corn 'pome' are the staple articles of consumption. Stewed chicken is given to guests everywhere and all the time, although it is very evident that pork in some one of its forms is the common meat of the family. There being very little sale for butter it is used such as it is, in great profusion.

One fine morning we perceived by the odor that coffee was being roasted. A short time afterward we glanced in to a sort of outbuilding, and saw one of the women pounding something in a wooden mortar, with a pestle of the same material. On inquiry, we learned that she was pounding the coffee. We were much amused at a remark of the woman (mistress) of the house. Hearing described in glowing colors the effects upon the country of the building of a railroad, and the consequent rising of fruits and vegetables for the New York and Philadelphia markets, she said: 'But somebody must raise corn, anyhow.'

The ignorance of a majority of the people is perfectly appaling. Many men of property sign their names with a cross. What else can be expected, when the schools are only kept open from four to six months in the year, and the teachers are only paid from $20 to $30 a month. Riding along one day we saw, right by the roadside, in the edge of a pine woods, a Delaware school house. It was built of wood, and was twenty four feet long by twenty feet wide. We entered and found seated, we should think, about twenty-five children, mostly small. The floor was dirty and everything had rather a dilapidated appearance. The teacher appeared not to know what people of his profession were paid per month in the district.

'I meant to have told you of that hole,' said a gentleman to his friend, who was walking with him in his garden, and stumbled into a pit full of water. 'No matter,' said his friend, 'I've found it.'

A SHIP LOAD OF ELEPHANTS.

The ship Nehemiah Gibson, Captain Smalley, arrived at New York from Ceylon a few days since, with a cargo of eleven elephants. Of them and the passage the captain says:

The elephants were bargained for at the jungle. They are all fine beasts and no mistake. They were all captured in the jungles of the Mannah District in Ceylon, and all of them with one exception, a fellow of thirty years of age, were fresh caught and wild. The one referred to had been about two years in the custody of the native dealers.

We received the elephants at Colombo (Ceylon,) and they were got on board by means of canvas slings and ropes and pulleys hung from the rigging and mainsail boom. Eleven of them in all were safely stowed away between decks. Forty five natives were employed in the work of hoisting and lowering them aboard ship. This number was more than was needed, but labor is cheap in Ceylon and I thought I might as well have enough while I was about it.

I made good preparations for them; I had stalls built of teak wood, strong enough on all sides to resist a pressure of two thousand pounds, and so constructed as to keep each animal in his place and securely separated from the others in the roughest weather. We sailed on the 29th of March, and experienced the best kind of weather until we reached the cape of Good Hope. We had some little trouble and anxiety about the elephants. Most of them got sea-sick, which was manifested in their refusing to eat or drink for several days, but they soon got over their qualmishness and were able to eat as heartily as when on dry land.

At the Cape of Good Hope we began to have rought weather. We had three terrific gales while rounding the Cape, the 14th to the 22d of May. We all felt a great deal of anxiety about the elephants, who sometimes set up a fearful roaring, but luckily the bark weathered the gales successfully, and the elephants, thanks to the excellent precautions taken to fasten them securely in their stalls, came through it all right.

The arrangements for hoisting the animals from the bark to the pier yesterday were ropes and pulleys fastened in the riggings, and canvas slings. There was no trouble in landing the first three. The fourth one was the elephant called Mandoy. This brute became quite unruly before the sling was fixed, and roared and threw his trunk about in a rage The men handling him became frightened and the captain went below and finally succeeded in pacifying him. He was finally trapped, and as he was hauled up and suspended in the air he flapped his big ears, worked his huge legs, and threw his trunk around wildly. When he was landed on the pier he showed some signs of rage at the jeering crowd who were looking on, and at the same time the three elephants, already landed, broke from their fastening to a post on the pier. The animals were all secured again, and were led off towards the depot under the charge of Mr. Chanum. As they were going down the pier the elephants started on a run, and the crowd scampered in all directions. The elephants soon got under control again, but the crowd on the pier were more cautious of a close approach to those afterward landed.

Fred Douglass has been giving his people some good advise. Speaking at a colored meeting at Baltimore recently, he said: We hope yet to see the day when the colored mechanics of Baltimore will leave the lanes and alleys. It would be impossible for angels to rear families in those dreadful dens of bad air and bad morals, and to lead lives of intelligence, virtue and refinement. We must get rid of the somewhat religious idea that we ought to live, like bats and owls, in holes and corners on the earth in order to live in glory hereafter. They must understand their day and generation. Leaving the things that are behind, and shaking off the ideas and customs of the old house of bondage, they must adjust themselves to the demands of the new relations into which, by the inevitable laws of human society, they have been brought.

Walking through the streets of Charleston, South Carolina, one can see a large turkey buzzard here and there, quarreling with a dog about the possession of a bone. These turkey buzzards, or carrion birds, as they are more familiarly known, are as tame and docile as the common cur dogs which wander through the street. They have been in the habit of visiting the city for almost a century past, and have become so useful that the laws of the state prohibit any interference whatever with them. The children, dogs, poultry, and all the street habitues are on intimate terms with them. They are very industrious and can be depended upon to clean all refuse which may be thrown upon the streets. They live a mile or two out in the country, and spend their days in the city around the market, where they devour the offal. They are pronounced by those who have tried them to be the best scavengers in the world.

A QUAKER PRINTER'S PROVERBS.

Never sendest thou an article for publication without giving the editor thy name, for thy name oftentimes secures publication to worthless articles.

Thou should'st not rap at the door of a printing office, for he that answereth the rap sneereth in his sleeves and loseth time.

Neither do thou loaf about, ask questions, or knock down type, or the boys will love thee like they do shade trees—when thou leaveth.

Thou should'st never read the copy on the printer's case, or the sharp and hooked container thereof, or he may knock thee down.

Never inquire thou of the editor for the news for behold it is his business at the appointed time to give it thee without asking.

It is not right that thou shouldst ask him who is the author of an article, for his duty requireth him to keep such things to himself.

When thou dost enter into his office, take heed unto thyself that thou dost not look at what may be lying open and concerneth thee not, for that is not meet in the sight of good breeding.

Neither examine thou the proof sheet, for it is not ready to meet thine eye, that thou mayest understand.

Prefer thine own town paper to any other, and subscribe for it immediately.

Pay for it in advance, and it shall be well with thee and thine.

A STRIKING COINCIDENCE.

At the beginning of the war of the rebellion two young men, about thirty five years of age, joined the union army, one from Iowa and the other from Ohio. The chances of war threw them together in the same division and they first became acquaintances, and then warm friends. Both were modest and unassuming, but earnest, faithful and true in the good cause.

At the close of the war these two young men were mustered out with the rank of colonel, and on the 21st of June both were nominated by the republicans of their respective states for governor.

Col. Noyes, of Ohio, lost a leg at the battle of Roughs Mill on the 4th of July, 1864, while Col. Carpenter, of Iowa, fortunately escaped the accidents of war and returned home sound in body and mind.

A very curious incident, illustrative of the power which can be exercised over the animal creation by kindness and careful training, occured a few days ago at Scottsville, Ky. The sister of officer Henry Mansfield, of this city, had raised a mocking bird which she had taught to go and come, at her call, and which in return for all the kindness bestowed upon it, exhibited a peculiar fondness for her. Last Monday week Miss Mansfield was taken ill, and to while away the tedium of the sick room, she had her little pet at her bedside, and day and night it cheered her with its sweet carols, bringing to mind many happy thoughts of field and meadow, sunshine and song. As her illness grew more alarming, and day after day brought no relief from suffering, the warbling of the little songster rather served to annoy than to please her, and so turning wearily on her pillow, she said to him, 'Birdie, hush, you worry me.' Strange to say, the words seemed to be understood, for immediately the song was hushed, and the bird retired within himself as it were. On the next day the lady died, leaving, it would seem, a command of silence upon the bird, which will never be broken, for although several days have elapsed since and every effort has been made to induce him to sing, he refuses to respond with song to any lips but those of his once loved mistress.—*Nashville (Tenn.) CLEVELAND, July 31.—A bold robbery was committed on Saturday at the house of Luther P. Gay, about six miles from Medina, Ohio. Mr. Gay was at home alone: the rest of the family were attending a picnic. When in the yard about noon, he was addressed by two strangers, one who had a police man's star on his brest, pointed a revolver at Mr. Gay's head, and the other said, 'I arrest you in the name of the United States as a counterfeiter,' and at the same time putting his hands in irons. The robbers then took him to the house blindfolded and tied him to a bed, demanding the keys to his safe. Being unable to find them they blew the safe open with powder and robbed it of $5,000 in United States bonds and several thousand dollars in bills. They succeeded in making their escape.

A Colorado saloon keeper said of a hard crowd: 'I could not get their whiskey strong enough for them, so, after trying every way, I at last made a mixture of poison oak and butternut. That fetched them. I called it the sheep herder's delight, and it was a popular drink. The first Pike I tried it on yelled with delight; the one took two drinks, and turned a double somerset in the road before the house. A peddler came along, and after he took several drinks of my sheep herder's delight, he went off and stole his own pack and hid it in the woods.'

A lady in a philosophical mood, asked a male friend how it happened that boys got all the bad traits from their fathers. 'I dont know,' was the reply; 'but perhaps it would help us to answer if we could find out where the girls get their blemishes from.' 'Oh,' replied the fair metaphysician, 'they all come from their grandfathers.'

Mark Twain says Horace Greeley once tried to make a living as writing master, and failed. His copy was, 'Virtue is its own reward,' and the scholars got it, 'Washington with soap is wholly absurd.'

PLOTTERS IN CRIME.—Under this caption the last number of the Prohibition Era, of Cleveland, discloses a scheme which is on foot, as the article alleges, to form a combination by which the best and most salutary protective laws we have in Ohio against the evils of intemperance, are to be repealed. The liquor party, especially in the cities, has been forming its secret leagues, the purpose of which is to nullify the antiliquor laws, and thus permit the work of making drunkards to go on with impunity. This liquor league, the Era further states, is making its bargains with leaders of the republican party that they shall co operate in working a repeal of the wholesome laws above referred to. If this allegation is true, that these leaders are plotting such mischief, we should say to every voter who thinks of the welfare of himself and with whom he associates, either socially, morally, politically, and in any other relation of life, that he must beware of such misleaders. Dont follow them at your peril. And if the republican party or any other party sees fit to sell itself to the interests of the grog party, in order to obtain office and power at the expense of principle, we are sure that all such organizations making overtures of this character, will, ere long, meet such a rebuke at the hands of an abused and deceived people, as will abash if not annihilate them from the earth. The fate of such is foredoomed by the indellible history written of the fate of the once great and ruling whig party. Its leaders saw proper to trade off the peoples' votes, as far as they could do so, to the slaveholding oligarchy of the south, and fearful was the result. They realized that pregnant saying uttered in the book nearly twenty centuries ago, in regard to a class of evil doers then extant, of whom something like this language was used—Whosoever falls upon this rock shall be broken in pieces, but on whomsoever this rock shall fall will be ground to powder. Didn't the ancient whig party realize this truism most fearfully? And why? They tried to barter off the prospects of the liberty of millions forever, if they could, so they might but obtain the offices. The democratic Philistines came upon them and crushed them out of existence In their turn the democrats suffered a like annihilation as a great political party. Compensation or retribution ground these parties both to powder. Does the republican party wish to avert a similar fate? If so, let it beware of this deceiving Delilah, least it be shorn of its strength and be ground to the earth with disgrace.

Thirty years ago and more we were among those who worked, against derision and slander, and contumely of the blackest dye, to establish the principles of equal rights in our country All the legitimate agencies in this behalf were made use of, and perseverance brought with it a glorious result. The patriarchs, prophets, sufferers and martyrs within the last two or three decades did not labor and suffer in vain. A world acknowledges their triumph. We expect never to swerve from the grand old landmarks so plainly laid out by our venerable forefathers, who proclaimed the equality of all men in the immortal Declaration. Its doctrines are good enough for all time. Equally entitled to our reverence are the principles which underlie the happiness of our race which principles are spreading and doing battle for the welfare of all, by opposing the iniquitous system which loads the air with shrieks and cries all over the land, arising from the crimes engendered by intemperance. No party can permanently prosper which bows to it—nor ought alcohol to live a day. Much as we respect the republican party, and its faithful colaborers, who have alone a great and good work, we cannot but utter a word of caution against any scheme on foot having for its object the destruction of the most wholesome laws we can boast against intemperance, especially if this party is used as an instrumentality with which to bring about this nefarious result.

It is usual when a calamity of magnitude occurs for the first reports of it to overstate its extent. Concerning the blowing up of the New York ferry boat on the 30th ult. a contrary rule applies. We had it at the beginning that some thirty were killed, and perhaps a hundred seriously injured. Every day for several days the number of the killed increased, until it reached more than eighty, with some prospect that one hundred may be reached. With all the investigations as to the cause of the disaster it is not yet fully determined what was the real cause, nor who was responsible for its occurrence.

For the Independent.

REPLY TO THE INFIDEL ATTACK OF THE INDEPENDENT ON CHRISTIANITY.

As the INDEPENDENT has brought two articles headed "Thoughts on the Supreme Being," and has therein attacked Christian principles, and insults with willful and unjust accusations the Christian public, it would be shameful for a Christian believer who has to confess Christ, and his Gospel before the whole world to be here, silent. But before we enter into a discussion of the matter we feel it our duty to state to the public, that the writer who speaks so much of high and manhood, has preferred to conceal himself and no entreaty on the Editor of the Independent could bring him from his hiding place. Although such persons cannot command respect in such important proceedings, but as the productions have been made public, and have been thrown audaciously into the face of every Christian of whatever name and denomination the undersigned has taken the responsibility upon himself to reply to the charges and to the best of his ability. But we leave the public to judge about the propriety of this underhand dark and yet audacious proceeding to make unwarrantable charges against our most precious common Christian faith and its principles, without the courage to confess himself to the production or for the editor in refusing to let us know who is our opponent. This hiding of names in this proceeding is in itself significant and certainly damaging to the character of the productions in the sight of every honest man. It is with reluctance that we take up our pen in this matter, especially as we think the defence of Christian principles against said charges belonged to another Pastor in this place out of whose sermons the controversy seems to have originated, but he refused to reply on the ground, that the editor of the Independent had withheld the name of the writer. Admonitions were unavailing and as there was no prospect that any other English Christian professor would undertake the reply we found ourselves in a state of necessity, notwithstanding our imperfections in the English language (being German) to undertake the defence.

The attacks of the aforesaid articles rest on the supposition that Christianity is based on the foundation of ignorance, fables, credulity and traditions of men that needed only the digging of infidel investigations to overthrow it and the torch of free thinking to set the whole fabric on fire to be consumed. O, how vain are such thoughts! the writer does certainly not know that it is just the reverse. He ought to consider a little what Christ says of his word and church; Mathew 16 & 18, *Upon this rock I will build my church and the gates of Hell shall not prevail against it.* Did he ever consider the verification of this passage in the history of the Christian church and its victories over all kinds of infidelity? If a dog barks against the moon he will not thereby change its course or appearance nor annihilate it out of existence. It does not take much wisdom to make charges and mock, this can be done by being evil disposed against a thing; but to substantiate with unrefutable facts the charges made, shows wisdom. If the writer could do this he would be a benefactor of the public, because if the Christian principles were wrong, they would not be worth believing a minute. But before we are through he will perceive that his thinking is very loose, his standing under the shade of some infallible infidel pope very unsafe and his whole investigation very unreliable. Perhaps he the full grown man will yet suck the milk of the Gospel and crawl into some kind of shell to find a resting place for his conscience, before he dies. In replying we are compelled to follow, for the sake of the reader, the order of our opponent. We light on three points; then: first the Supreme Being; secondly, whether really the sciences subvert Christianity; thirdly, on his attack of especial doctrines and charges.

THE SUPREME BEING.

What does this name really mean? Webster says, being is existence as opposed to nonexistence. Supreme; that is above. Supreme Being taken together means existence above all things. Now what is the doctrine of the unknown writer on the Supreme Being? Notwithstanding his confusion on this point, we think we have it in the following passage, which I have extracted from his articles as the plainest. He says in Art. 1, "Then if all matter from infinitessimal gobules to worlds and suns is a part and portion of the Supreme Being, had it a beginning or can it have an ending?" Again: "And if matter and the supreme Being are inseparable, is it possible, that matter was ever without law or in chaos?" Again: "If this cannot be admitted then are intelligence, law & matter portions of the Supreme Being, and consequently had no beginning." Again: "Law being a part of the Supreme Being." Again: "Yet all in and a part of the Supreme Being, whose are we? Are we not all of the Father who send us?"

Now what does all this mean? Does it mean that God is above law, matter and intelligence as we behold them in nature as his creatures? No, there is nothing above nature no Creator, for he says matter is co-eternal with the Supreme Being, he is inseparable with matter that means one. He says matter, law and intelligence are portions of God, and man is a portion of him These all taken together are constituting the Supreme Being. In plain language it means nature itself is God, and God is himself nature. There can be no more a Supreme Being for there is nothing above or below. Everything is God, whether high or low, animate or inanimate. This is the great wisdom that is to enlighten the world and break the neck of Christianity and all kinds of superstition, as the writer boasts. But we remind the unknown writer especially as he seems to think this to be a new and great thing, that it is already very old and very common thing, which as Liebeg the renowned German chemist says ought never to have been called philosophy He calls them dilletants and lazy thinkers.

Orpheus an ancient Grecian philosopher of heathen times taught the same. He called the world the body of God. The same was taught by Thales, Anaximenes and Anaxinander of ancient times, among the moderns Diderot and many others. It is now also preached by Vogt and Buechoner, two German materialists, but this notion was contradicted and refuted by so many other philosophers, that it can not command respect by a thinking investigating public. Much less could it stop the progress of Christianity, which had withstood the attacks of all kinds of systems of all past ages, and will most certainly remain the victor in all the future. The above system seems to hold to the name of God, but in fact it has no right to it, for according to Webster, God means the Supreme Being, the eternal and infinite spirit, the Creator and the sovereign of the Universe. But this monster being an admixture of matter, law, and intelligence, and whatever belongs to the visible and invisible world is neither a spirit nor supreme. It may be called a being because the parts of which it is composed exist, but as there is nothing above it, and therefore can be nothing below it, which terms are necessary in the word Supreme, the name of God and Supreme Being ought to be left alone by this system. The world is their God. It is his body its laws his nerves, its life his life and its intelligence his intelligence and brains, there is nothing outside nor above it. Exemplification will make it more plain. Taking as example, for instance, a machinist and his machine. The machinist is a different thing from the machine. His brains have studied the laws and principles on which the machine is constructed, but it is only an Emanation therefrom a product, but the brain itself of the machinist is not gone out of him and found in to the machine. The principle and laws, that rule his life and person are not made inseparable with the laws of the machine so as to bind him forever to its motion force and operation, and make him a slave of the vilest kind. Much less that his body should be transformed in to the material of iron in the shape of wheels, shafts, etc. Yet this is the position this system gives to God. What would our machinists in this place say if some day a man would come intending to speak to Mr. B. or R. would turn to a machine thinking said gentlemen and the machine were one and the samething, and commence conversation. We are sure he would be accounted crazy and his behavior a very ridiculous act. And should it be here otherwise, when they make God and the world one and the samething.

(TO BE CONTINUED.)

The Baltimore, Pittsburgh and Chicago railway company, which is the intended western outlet of the Baltimore and Ohio and Pittsburgh and Connellsville railroads, was organized in this city on Friday evening last by the election of the following directors:

President—W. O. Hugart.
Secretary—John H. Page, Jr.
Treasurer—W. H. Ijams.
Directors—James Laughlin, Jr., W. D. Wood and Geo. F. McLain, of Pittsburgh, and W. Keyser, P. H. Garrett, and W. F. Burns, of Baltimore.

We mentioned a day or two ago that a line was being surveyed to the Allegheny river via. the four mile run, and that in all probability that previously surveyed and located by the nine mile and Negley's runs would be abandoned in favor of the former. The assurance is now given by Mr. Hughart that the work in Pennsylvania will very soon be ready for contract, which means that one or the other of the routes is to be speedily adopted.

The organization in Ohio and Illinois will be perfected immediately, and work pressed along the entire line as rapidly as circumstances will admit.

Books of subscription to the capital stock will be opened in Pittsburgh, and there is no doubt that all remaining (a large amount having already been sold) will be eagerly subscribed for by our capitalists. The well known abilities of the gentleman at the head of the new company, and especially of Mr. Hugart, will no doubt be a sufficient guarantee to the community that in a short time the city may have the advantages of a rival and competing line to the west and the great lakes of the northwest.—Pittsburgh Commercial.

George Scott, J. R. Doddridge and another man were the persons in Mr. Folger's house at the time it was struck by lightening last Monday They were stunned, but not severely injured.

ONE MILLION OF LIVES SAVED!

It is one of the remarkable facts of this remarkable age, not merely that so many persons are victims of dyspepia or indigestion, but its willing victims. Now we would not be understood to say that any one regards dyspepsia with favor, or feels disposed to rank it among the luxuries of life. Far from it. Those who have experienced its torments would scout such an idea. All dread it, and would gladly dispense with its unpleasant familiarities. There are diseases more acute and painful, and which more frequently prove fatal; but none, the effects of which are more distressing to the body. If there is a wretched being in the world it is

A CONFIRMED DYSPEPTIC.

But it not our intention to discant on the horrors of dyspepsia. To describe them truthfully is simply an impossibility. We have said that dyspepsia is perhaps the most universal of human diseases. This is emphatically the case in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the hasty manner in which it is usually swallowed, is not our province to explain. The great fact with which we are called to deal is this :

DYSPEPSIA PREVAILS

almost universally.

Nearly every other person you meet is a victim, an apparently willing one; for were this not the case, why so many sufferers, when a certain, speedy and safe remedy is within the reach of all who desire to avail themselves of it? But says a dyspeptic, What is this remedy? to which we reply. This great alleviator of human suffering is almost as widely known as the English language. This acknowledged panacea is none other than

HOOFLAND'S GERMAN BITTERS.

Would you know more of the merits of this wonderful medicine than can be learned from the experience of others? Try it yourself, and when it has failed to fulfil the assurance of its efficacy given by the proprietor, then abandon faith in it.

LET IT BE REMEMBERED

first of all, that Hoofland's German Bitters is not a rum beverage.

They are not alcoholic in any sense of the term. They are composed entirely of the pure juice or vital principle of roots. The extracts from which they are compounded are prepared by one of the ablest German chemists. The objections which hold with so much force against preparations of this class, namely—that a desire for intoxicating drinks is stimulated by their use, are not valid in case of the German Bitters. Their effects can be

BENEFICIAL ONLY

in all cases of the biliary system. Hoofland's German Bitters stand without an equal, acting promptly and vigorously on the liver; they remove its torpidity and cause healthful secretion of the bile. They impart vigor and strength to the entire system, causing the patient to feel like another being—in fact, giving him a new lease of life.

THEY PURIFY THE BLOOD,

cleansing the vital fluid of all hurtful impurities and supplanting them with the elements of genuine healthfulness. In a word, there is scarcely a disease in which they cannot be safely and beneficially employed; but in the generally prevalent distressing and dreaded disease, dyspepsia,

THEY STAND UNRIVALED.

Now, there are certain classes of persons to whom extreme bitters are not only unpalatable, but who find it impossible to take them without positive discomfort. For such

HOOFLAND'S GERMAN TONIC

has been prepared. It is intended for use where a slight alcoholic stimulant is required. This tonic contains all the ingredients of the bitters, but so flavored as to remove the extreme bitterness.

HOOFLAND'S TONIC

acts with almost marvelous effect. It not only stimulates the flagging and wasting energies, but invigorates and permanently strengthens its action upon the liver and stomach thorough, perhaps less prompt than the Bitters, when the same quality is taken is none the less certain. Indigestion, biliousness; physical or nervous prostration, yield readily to its potent influence. It gives strength to weekness, throws dispondency to the winds, and starts the restored invalid upon a new and gladsome career. But Dr. Hoofflands benefactions to the human race are not confined to his celebrated

GERMAN BITTERS,

or his invaluable Tonic. He has prepared another medicine, which is rapidly winning its way to popular favor because of its intrinsic merits. This is

HOOFLAND'S PODOPHYLLIN PILLS

a perfect substitute for mercury, without any of mercury's evil qualities.

These wonderful pills which are intended to act upon the liver, are mainly composed of Podophyllin, or the

VITAL PRINCIPLE OF MANDRAKE ROOT.

Now we disire the reader to distinctly understand that this extract of the Mandrake is many times more powerful than the Mandrake itself. It is the medical virtues of this health giving plant in a perfectly pure and highly concentrated form. Hence it is that two of the Podophyllin pills constitue a full dose, while anywhere six to eight or a handful of other properations of the Mandrake are required. The Podophyllin

ACTS DIRECTLY ON THE LIVER

stimulating its functions and causing it to make its biliary secretions in regular and proper quantities The injurious results which invariably follow the use of mercury is entirely avoided by their use.

Possessing desirable qualities, the Podophyllin becomes invaluable as a

FAMILY MEDICINE

No household should be without them. They are perfectly safe, require but two for an ordinary dose are prompt and efficient in action, and when used in connection with Dr. Hoofland's German Bitters, or Tonic, may be regarded as certain specifics in all cases of liver complaint dyspepsia, or any of the disorders to which the system is ordinarily subject. The

PODOPHYLLIN PILLS

act upon the stomach and bowels, carrying off improper obstructions, while the Bitters or Tonic purify the blood.

PURELY VEGETABLE — FREE FROM ALCOHOL — DR. WALKER'S CALIFORNIA — VINEGAR BITTERS — EUREKA

J. WALKER Proprietor. R. H. McDONALD & CO., Druggists and Gen. Ag'ts, San Francisco, Cal., and 32 and 34 Commerce St., N.Y.

Vinegar Bitters are not a vile **Fancy Drink,** Made of **Poor Rum Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They Invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erisipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other **WORMS,** lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

CHEAP FARMS—CHEAP TRAVEL!

Chicago, Rock Island and Pacific Railroad Company.

600,000 *Acres Iowa choice Lands.*

This company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the state.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or other information respecting them, address EBENEZER COOK, land commissioner, Davenport, Iowa.

Exploring tickets are sold at the company's offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

LOCAL MATTERS.

Prof. H. O. C. Kortheuer, of the city of New York, being here on a visit to his father and relatives for a few weeks, proposes to give a vocal and instrumental concert, in the opera house, on Saturday evening, August 26th, in which he will be assisted by the best local musical talent in the place. Prof. K. has for years been successfully studying and practicing the science and art of music with an earnest wish to succeed, and as an artist, for one of his years and experience, has few equals and fewer superiors anywhere. Our music loving people, we are sure, will appreciate his talents and skill in the divine art, and greet him with a liberal share of patronage. On that occasion they will be favored with a choice variety of the best music. Further and more particular notice hereafter.

Mr. E. Kirkpatrick, a native of this place, but for several years a resident of Philadelphia, is now home on a visit, looking over the scenes of his early youth, and enjoying a season of rest among his friends and relatives.

Monday afternoon we were visited with a heavy rain, accompanied with high wind, and a light fall of hail. Vivid lightning and loud peals of thunder made the storm more terrific. A flash of lightning struck the residence of Mr. Folger, but no serious damage resulted from it that we hear of, though two or three carpenters who were at work there were considerably shocked.

Dr. Schertzer has left two tall stalks of corn at the grocery of H. Altekruse, one of which measures twenty-three feet, and the other the same number of feet and some inches. Tall corn to say the least of it.

By announcements in the O. S. Journal we notice that republican meetings are to be held at Canton, August 24th, to be addressed by Gov. J. C. Lee, and October 5th, the speakers name not given.

Last Sunday a young gentleman of this place hired a buggy of Mr. Clay to go to Canton. Returning home he had a young lady of Canton in the carriage which was upset on the bridge this side of that place, both parties were thrown out, the lady had a leg broken and the buggy was badly used up.

An Outrage of more than ordinary turpitude was perpetrated on last Wednesday by two young men toward two young ladies. The latter were on their way afoot toward the residence of a relative, who lives some distance up the railroad, and were followed by two young men, one of this place and the other a brakeman on the railroad, who belongs at Crestline. When the ladies reached the vicinity of the stone quarry they were attacked by the railroad man, whose name is given as Sloan, with the avowed purpose of perpetrating a gross outrage on one of them. Report says he seized her roughly, swearing and making threats of what he was going to do. Of course resistance was made, and somebody happening to come along he desisted further attempts at violence. The ladies went for safety to a house near by, and were not molested afterward. A relative of theirs, Mr. Whistler, we are informed, made complaint against the two men, and constable Shepley arrested the one living here—the other hearing what was up got on a train and left. The one who was taken by the officer appeared before Esquire Warner. The testimony against him was nothing farther than that he was along, but did not use such rough language as the other, nor did he assault either of the ladies. He was fined $20 and costs. The constable had a warrant for the the other man, but did not succeed in securing him, as the train on which he was would not stop long enough to make the needed search. So he had a start by steam for the west. Electricity, however, headed him, for our city marshal promptly telegraphed to the Wooster authorities, and when the train reached that place they made a raid on the caboose line which Sloan had gone. He made some resistance, and one report says he was armed, but was overpowered, and on Thursday evening securely landed at our station. It was too late to take action that day, so the accused was put into the caboose, where he remained till Friday morning. He was taken before Esquire Warner, —the witnesses gave such direct testimony that the justice required bail in the sum of $800 for his appearance at court. Not having bail he was taken to Canton for safe keeping, or until bailed out, if anybody sees proper to do so. The whole affair produced no little excitement in our community, but as the case is to be fully tried at the November term it is not prudent or proper to give expression to the sentiments of this community as to what should be done. Of course all are very decidedly down on such conduct as is charged against the offenders. We can trust our judicial tribunals to apply the law and its penalties, without any attempt at forestalling public opinion in the case.

David Tatum, the prohibition lecturer, now in active service in the cause, reports contributions in a late number of the Prohibition Era. Messrs. A. A. Buchtel and Lewis Miller, of Akron, each contributed $50. These are noteworthy examples which might be followed very credibly by many others.

It is with sincere regret that we record the death of Gen. E. F. Schneider, of Canton. In the spring of 1870 he started to Europe on a trip for his health. He wrote on the 20th ult., at Dresden, that his health was very poor, and that he intended to sail for home on the 29th ult. Gen. S. will be most favorably remembered by all who knew him as one of our estimable and worthy young men. He was about 33 years of age, and during his comparatively brief life held many positions of responsibility, always acquingtti himself with honor. Gen. S graduated at the printers' case.

Bro. Lockhart, of the Loudonville Independent, made us a brief visit one day last week, and reports that his paper is prospering. He gets up a well filled and readable weekly.

Some of our fowl men are cultivating valuable lots of chickens, in the aggregate estimate to be worth something like a hundred dollars. It may be that chicken combats are in contemplation—a very poor sort of amusement to humane and thoughtful people.

The Rep & Rep published the names of about 100 tent holders, who are to be at the camp meeting at Canton. Mr. E. B. Leighley of this place is one of the number.

An unusual numbber of people were in town on Saturday, as the streets were filled with horses and vehicles of various classes. It must have been an active business day with some of our citizens.

On Monday our streets were regaled, at one time, with two music machines, to each of which was attached a man who did the circular work, also a monkey to take in the nickels. We have not heard their financial report.

Some wagon loads of those nomads—homeless people, or cosmopolites—called gypsies, passed through our streets on Tuesday. Wherever they set up their tabernacles there will be some sharp horse trading, and perhaps fortune telling, if they can get verdant customers to trust their prognostications.

As it is in the democratic ticket so it is in the republican, Canton has gobbled up a pretty big share of the candidates. The primary election fixed things so, and what are we going to do about it? If either party goes to making changes they will be pretty sure to mix things, and to us it looks as if it would be quite as well to go it this time, and look out a little hereafter. Politics is a strange sort of fellow, and does some very curious things.

They are going ahead at Leetonia to put up a nail and bolt mill, with a capacity of some 20 machines. Parties are also preparing to put up a boiler shop in the same place. Enterprise is what does all this.

We are pleased that Rev. Mr. Little has furnished a brief response to the positions taken by Progress. His article appear elsewhere. We hoped ere this that some of our clergy at home would have responded, but thus far none of them have done so—for the reason they say that they dont know who the writer of Progress is. Thus far Progress has made it a point to discuss principles or propositions, and no matter who he is, his positions can be controverted as well under his assumed as his real name. Others think differently from him can utter their sentiments in these columns as freely as Progress does, no matter whether they appear over their names or remain incog. We want them to be free to express themselves on the questions involved, because all attach more or less importence to their right presentation.

Since the above was written we have been favored with a communication from a resident clergyman, which makes it necessary to defer Mr. L's article till next week. With pleasure we publish this article, or rather series of answers, to the views of Progress, for this is but an introduction of further criticisms on the same subject. And we are partial to the idea of giving both sides a hearing.

To a Bottle.—Under this caption in a file of papers of two score years of age are the following lines:

'Tis strange that you and I
Together cannot pull,
For you are full when I am dry,
And dry when I am full.

A truth which numbers have realized, lo, these many years.

As the nights increase in length and are cooler, the stridulous music of the katydid becomes more and more familiar, as its concerts began two or three weeks ago.

Phœbe Carey, one of the finest living poets of the age, died at her residence, in New York, on Sunday the 30th ult., aged about 45 years. She survived the death of her sister, Alice, about six months, and seemed never to recover from the shock occasioned by that sad event.

Business goes on as usual at the Frst National Bank under the direction of Mr. S. Hunt, cashier, notwithstanding the absence of Dr. Steese and Char'es Steese, who are now in the east, on a visit and pleasure excursion.

Gen. Kent Jarvis, who has been a little unwell at times of late, we are pleased to see, is at out town. Like many of the rest of us the years are beginning to tell on him, for although the spirit may be buoyant and youthful, the physical department cannot evade the corroding hand of time.

Our authorities have had placed in the park a new arrangement at the north end. A swan or some other water craft spirts a continuous stream of water, which rises in a beautiful jet—and makes no noise about it.

Crops.—Much has been said of the prolific crops of grain the present season, in this part of the country, but there are other crops of which no notice has been taken. For instance, somebody has a very promising tobacco crop consisting of one plant, situated in a portable field, which may be seen on pleasant days basking in the sunshine north side of Main street, near the canal. Another crop consisting of one peach raised by Mr. I S Crooks, a magnificent specimen of that delicious fruit, was on exhibition at the news depot, Opera house, a few days ago. It is invisible there at present.

Killinger & Co., are making the posts for gas lights, which are soon to be put up over town. That is as it should be. Our manufacturers should have all such work as can be done as well here as elsewhere.

A line in the American of last week stated that Wooster has a Bible which is 320 years old. A friend of ours has in his posession a Latin Bible which was printed in 1539, which makes it 332 years old—12 years older than the Wooster relic of antiquity.

A few days of last week were excessively hot, not so scorching as to raise the mercury quite up to the nineties, but the closeness or stillness of the air made it it very oppressive. On Friday afternoon a steady heavy rain fell which had a cooling tendency. Mr N. Sibila had men at work fixing his water pipe, which extends from the center of the street into the cellar. The ditch was open when the rain came, and no effort seemed available to prevent the cellar from being pretty well filled with water.

Just as we were going to press last week a report was in circulation here that the delgate vote for Frease and Tripp was a tie. We gave that report ....that was all. Will this "explain" do, bro. Rep & Rep?

Wm F Evans, lately of Canton, just deceased, is another of the many victims of intemperance. At one time he was a prominent men in this county, but became so demoralized that he died in the poorhouse a few days ago.

Messrs Adel & Co., of Columbus have sent forth a full report of the proceedings of the state Sunday school convention, held at Piqua, on the 7th and 8th of June, in the Convention Reporter.

The following is the vote for nominating the repub. candidate for judge at the primary election on the 29th ult, in Stark county: including the votes of Columbiana and Carroll counties, which constitute the first subdivision of the ninth judicial district of Ohio:

	—Del. vote.—		—Pop. vote.—	
	Frease.	*Tripp.*	*Frease.*	*Tripp.*
Stark,	48	2	2888	1050
Columbiana	10	32	1155	1413
Carroll	00	17	113	608
Totals	58	51	4156	3071

Besides the numerous candidates to be voted for at the coming election, there is another question comes up in this shape. Shall we have a convention to amend the state constitution? Voters have this matter to decide in October next. Perhaps it would be well to let our constitution alone at present. Frequent patching such documents is not profitable. But it is for the people to settle.

The camp meeting at Canton will begin on next Tuesday the 15th inst. and continue ten days. Eminent speakers are expected to address all who may be in attendance. Col Ball, who has charge of the grounds, will have everything in proper order to render the timee and place an agreeable one. We hope that the committee of the Y. M. C. A. of this place, Messrs G. P. Reed, E. A. Jones, and J. R. Hoover, who have been appointed to secure a course of lectures the coming season, will be successful in the work assigned them. We have need of just such a committee.

It has been settled that 320,000 pounds of tea at $1 a pound will come to $320,000. Here is the proof by the rule of three: Statement—If 1 lb of tea cost $1, how much will 320,000 lbs cost at $1 ℔ lb? Thus:

1 lb. : $1 : : 320,000 lbs.
$1
1 lb)320,000
$320,000.

The Massillon correspondent of the Canton *Democrat* says the Massillon *American* is authority for the correctness of this cipherring.

Mr. John Orth, tailor, also carries on dyeing and scouring, announces in to-day's paper that he is prepared to accommodate customers in the different branches of his business, in Warwick & Co's Wheat City Block. His experience is a warrant that he is competent to please customers.

Somebody here has suggested that as Mr. Tripp has not been nominated for judge, and that as Carroll county has loyal claims to a fair share of the offices, he might be nominated for congress in 1872. This is but a suggestion—perhaps others have thought of the same arrangement.

We acknowledge the receipt of a ticket to the Uhrichsville Agricultural Society, which is to hold its sixth annual fair on the 6th, 7th, and 8th of September. Messrs. Pittinger & Campbell, publishers of the Chronicle, also favor us with a copy of the list of premiums, rules, &c., of the fair. Somehow we seldom receive the Chronicle not once in a month, but have been sending the Independent regularly. We direct to Uhrichsville. Is that right, or must we direct to Dennison?

Marshal Seaman had some difficulty Saturday afternoon in arresting Mr. M. King, who was charged with abusing his wife. Mr. K. threatened the officer by pointing a pistol toward him, for which he was taken before the mayor and fined $20 and costs.

Our modern course of living begets a condition of the body that requires occasional relief. The system becomes enfeebled, deranged, clogged and labors in its task. The mind sympathizes with it and both sink, or is depressed together. To restore the vital forces, purge the system, clense the blood—take Ayer's Pills.—Glasgow (Ky) Free Press.

OUR MONTHLIES.

The Atlantic is up to its high standard of excellence. This monthly has attained national celebrity for the ability of its contributors' productions and for the judicious course of the publishers. It is, therefore, a favorite in many thousands of households in our own as well as other countries, and ever keeps before the minds of its supporters that this is an age of advancement in the intellectual, moral as well as physical world. J. R. Osgood & Co., publishers, Boston

The Phrenological Journal comes to us richly laden with good reading. It has for more than a score of years been a leading teacher in this age of the science of mental and moral philosophy, not overlooking the claims of the best physical training. The contents of the August number are of the choice character which usually mark its original and select productions. S. R. Wells, publisher, N. Y.—[N. B. We have to 'hook' the substance of this notice from an exchange as the August Journal has disappeared from this office.]

The Herald of Health, Wood & Holbrook, publishers, N. Y., opens with an excellent essay by the venerable Dr. Higginbottom, of England, against the use of alcohol in any shape as a medicine. The doctors, he claims, have made many a drunkard in prescribing spirituous compounds—and it is so. Other articles replete with sound advice for the preservation of health fill the pages of this number.

The Schoolmate, an Illustrated Monthly for Boys and Girls, by Joseph H. Allen, Boston. For many years this monthly has interested a large audience of readers, and this number cant fail to please.

The American Stock Journal offers larger premiums and a greater variety than any other paper, almost. Send for a specimen copy, illustrated show bill and premium list. Address N. P. Boyer & Co., publishers, Parkesburg, Pa.

Our Schoolday Visitor, that excellent monthly which we have had occasion so often to bring to favorable notice, maintains the high position which it has long held as a successful agent in leading our youth onward and upward in knowledge and virtue. Daughaday & Becker, publishers, Philadelphia, Pa.

Merry's Museum, a spirited monthly for Boys and Girls, always illustrated, by Horace Fuller, Boston. This month's number has a fine picture in colors, beside the usual variety of contents.

The Household, by G. E. Crowell & Co., Brattleboro, Vt., cannot but be a welcome visitor wherever introduced. Its specialty is indicated by the title, and it fills that place admirably The women like it, and the men are very partial to it.

Mr. Vick, of Rochester, N. Y., gives notice that he is prepared to send out bulbs free of postage, commencing in September, and continue until December. He is favorably known as one of the most successful dealers in this tasteful branch of business.

The annual Catalogue of the Ohio Wesleyan University for 1870-71 indicates that that institution of learning is in a prosperous condition. In the college department there are 241 students, preparatory 74, scientific course 100—in all 415.

Looking over an old file of papers a few days since, issued in 1829, we found the following item, which will be read with some interest now:

Locomotive steam engines are now propelling carriages on the railroads, in England, at the rate of thirty miles an hour.

Just about that date a short railroad was made from Boston to a neighboring town—the first railroad in this country. Now there are more than fifty thousand miles of railroads, and locomotive are not all limited to thirty miles an hour. Forty years has made a vast difference in our mode of travel, as well as in many other matters.

The high wind on Monday afternoon broke down and rooted up trees in this place, and some roofs are said to have been raised from buildings a short distance, but not carried away. No serious damage was done that we have heard of, though very threatening appearances were manifested for a few moments.

The friends of prohibition in Columbiana county have nominated a temperance ticket.

Debility and Emaciation.

Both result from the lack of ability to convert the food into nutriment. How necessary, then, for those suffering from these alarming symptoms to immediately resort to a remedy that will strengthen the stomach and digestive organs. For as soon as this desirable object has been accomplished the health improves, and the patient resumes his usual personal appearance. Hostetter's Stomach Bitters have attained a world wide reputation for such cases, and have been proven the safest and best means of removing constipation, toning the stomach, giving energy to the liver and relieving every symtom of nervousness and depression of spirits. Its cheering and beneficial effects are highly spoken of by thousands, who owe to it their restoration to health. No restorative in the annals of medicine has attained the same popularity in the short space of time it has been before the public, or has won the high endorsement accorded to this excellent tonic. Many other preparations, purporting to be correctives and restoratives, have been introduced, and have perished one by one, while the popularity of Hostetter's Stomach Bitters continues to increase, and is now recognized as a standard household remedy. The success which attends the use of the bitters evinces at once its virtues in all cases of debility and disease of the stomach. Certificates, almost without number, have been published, attesting its truly miraculous power in removing those painful and fearful diseases. At this it seems idle to do more than call attention to the great remedy of the age, in order to awaken public attention to its excellence. It is the only preparation of the kind that is reliable in all cases, and it is therefore worthy of the consideration of the afflicted.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against a sudden attack of *Croup*, it should be kept on hand in every family, and indeed as all are liable to be subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any one. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgements we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

Dr. J. LONG,

Eclectic Physician,

Has located himself at Massillon, O., for the treatment of

Female & Chronic Diseases.

Office east of the Park, second door of Mr. Falke's new building.
All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally, must depend upon the judgment of both patient and physician.

Give Dr. Long a call, and satisfy yourselves whether he understands your cases sufficiently well to treat them successfully.

Dr. Long may be consulted in the German and English languages. Address letters,

Manhood; how Lost, how Restored.

Just published, a new edition of Dr. CULVERWELL'S Celebrated Essay on the radical cure, without medicine, of Spermatorrhœa, or Seminal weakness, involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.: also, Consumption, Epilepsy and Fits, induced by self indulgence or sexual extravagance.

Price in a sealed envelope only six cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, postpaid on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

DR. WHITTIER

Continues to treat all private diseases, syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhœa or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are perfectly cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and, treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and privare diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

DR. PIERCE'S
ALT. EXT. OR. GOLDEN MEDICAL DISCOVERY

The originator of this wonderful medicine claims to have discovered and combined in harmony more of Nature's most sovereign medical properties than was ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of Bronchitis and the early stages of Consumption, it has astonished the medical faculty, and hundreds of the best physicians pronounce it one greatest medical discoveries of the age. By its great and thorough blood purifying properties, it cures all Humors from the worst Scrofula to a common Pimple or Eruption. Mineral Poisons, Syphilitic and Venerial Diseases, and their effects are eradicated and vigorous health and a sound constitution established. Salt Rheum, Scald Head, Fever Sores, in short, all the numerous diseases caused by bad blood, are conquered this powerful, purifying, and invigorating medicine, For Liver Complaint, Billious Disorders and Habitual Constipation, it has produced hundreds of perfect and permanent cures where other medicines have failed.

The proprietor offers $1,000 reward for a medicine that will equal it in the cure of all the diseases for which it is recommended. Beware of counterfeits and worthless imitations. See that my private Government Stamp, which is a positive guarantee of Genuineness, is upon the outside wrapper. This medicine is sold by Druggists at $1.00 per bottle. Prepared by R. V. PIERCE, M. D., Sole Proprietor, at his Chemical Laboratory Seneca street, Buffola, N. Y.

Henry T. Helmbold's

COMPOUND FLUID

Extract Catawba

GRAPE PILLS.

Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juice.

For Liver Complaints, Jaundice, Bilious Affections, Sick or Nervous Headache, Costiveness, etc. Purely vegetable containing no Mercury, Minerals or Deleterious drugs.

H

These pills are the most slightfully pleasant purgative, superseding castor oil, salts, magnetia, etc. There is nothing more acceptable to the stomach. They give tone and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few day's use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar coated, from the fact that sugar coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The Catawba Grape Pills, being pleasant in taste and odor, do not necessitate their being sugar coated, Price 50 cents per box.

E

Henry T. Helmbold's

Highly Concentrated Compound

Fluid Extract Sarsaparilla

Will radically exterminate from the system scrofula, syphilis, fever sores, ulcers, sore eyes, sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, runnings from the ear, white swellings, tumors, cancerous affections, nodes, rickets, glandular swellings, night sweats, rash, dyspepsia, and all diseases that have been established in the system for years.

L

Being prepared expressly for the above complaints, its blood purifying propensities are greater than any other preparation of Sarsaparilla. It gives the complexion a clear and healthy color, and restores the patient to a state of health and purity. And is the only reliable remedy for the cure of pains and swellings of the bones, ulcerations of the throat and legs, blotches, pimples, erysipelas and all scaly eruptions of the skin, and beautifying the complexion. Price $1,00 per bottle.

M

Henry T. Helmbold's
CONCENTRATED

Fluid Extract Buchu,

The Great Diuretic, has cured every case of diabetes in which it has been given. Irritation of the neck of the bladder and inflamation of the kidneys, ulceration of the kidneys and bladder, retention of the urine, gravel, milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with loss of memory, indisposition, weak nerves, trembling, pain in the back, hot hands, dryness of the skin, and a host of other symptoms. Used by persons from the ages of eighteen to twenty-five, and from thirty-five to fifty-five, or in the decline for change of life; after confinement or labor pains; bed wetting in children,

B

Helmbold's Extract Buchu is Diuretic and blood purifying, and cures diseases arising from dissipation, excess and imprudences in life, impurities of the blood, etc., supersedes copaiby in affections in which it is used, and syphilic affections—in these affections used in connection with Helmbold's rose wash.

Ladies, In many affections peculiar to ladies, the buchu is unequaled by any other remedy—as in chlorosis, irregularity, ulcerated state of the uterus, leucorrhœa or whites sterility, and for all complaints incidental to the sex, whether arising from indiscretion or dissipation. It is prescribed by physicians and midwives for the enfeebled and delicate constitutions of both sexes, and all ages.

O

H. T. HELMBOLD'S EXTRACT BUCHU cures diseases arising from imprudences habits of dissipation, etc, in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It causes a frequent desire, and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, so frequent in this class of diseases.

Use Helmbold's Extract Buchu for all affections and diseases of the urinary organs, whether existing in male or female, from whatever cause originating and no matter of how long standing. Price $1,50 cents per bottle.

L

HELMBOLD'S IMPROVED ROSE WASH cannot be surpassed as a face wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, indurations of the cutaneous membrane, etc., dispels redness and incipient inflamation, hives, rash, moth patches, dryness of the scalp or skin, frost bites, and all purposes for which salves and ointments are used. It is an excellent Lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts Buchu, Sarsaparilla, and Catawba Grape Pills, in such diseases as recommended cannot be surpassed. Price $1 per bottle.

D

Full and explicit directions accompanying the medicines. Evidence of the most responsible and reliable character furnished on application, with hundreds of thousands of living witnesses, and upward of 30,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent physicians, clergymen, statesmen, etc. The proprietor has never resorted to their publication in the newspapers; he does not do this from the fact that his articles rank as standard preparations, and do not need to be propped up by certificates.

H. T. Helmbold's Genuine Preparations,

Delivered to any address. Secure from observation, Established upward of twenty years. Sold by druggists everywhere. Address letters for information in confidence to Henry T. Helmbold, Druggist and Chemist.

Only depots: H. M. Helmbold's Drug and Chemical Warehouse, No. 594 Broadway, N. Y. or to H. T. Helmbold's Medical depot, 104, South Tenth st. Philadelphia, Pa.
